# WIZARDS ARENA

Multiplayer Play-to-Earn NFT Game

WIZARDSARENA.NET

WIZARDS ARENA

ALEPHIUM NFT GAME

Wizards Arena is not just any NFT. We believe in utility NFTs that can actually be used to benefit the owner. In Wizards Arena, you can use your NFT to trade, upgrade, and battle in hopes to beat out your competition.

We break the mold of traditional games. It's not a .exe file or a game played with a controller, but instead our entire ecosystem is part of "the game". Our NFTs, our token, our website, our community and their strategies are all integral parts of the experience.

WHAT WE WANT TO ACHIEVE & HOW

DYNAMIC NFTS

NFTs with stats the can be upgraded by the user. These stats are stored on chain as mutable values, and the user can change them by paying in $WIZA.

ON-CHAIN ACTIVITY

Our game on Kadena has done over 250k transactions in two years. We can easily achieve this on Alephium, and probably more.

### COMMUNITY BONDING

Wizards Arena creates a perfect environment for users to work together. Whether its to work together or to battle each other, the game relies on its users.

TIMELINE

$WIZA TOKEN SALE

We plan to use AlphPad to launch our token. The proceeds will be used for Liquidity, Treasury, and NFT development.

DEVELOP NFTS & MINT

We will use the grant to pay for Dapp development. These aren't just any NFTs, they are dynamic and have stats that can be upgraded.

LAUNCH & BUILD MORE

Launch the project with NFTs, $WIZA Token, Magic Shop, and Weekly Tournaments.

OUR TEAM

Creative developer with 8+ Years experience in app & blockchain development. Oversees all project decisions and operations.
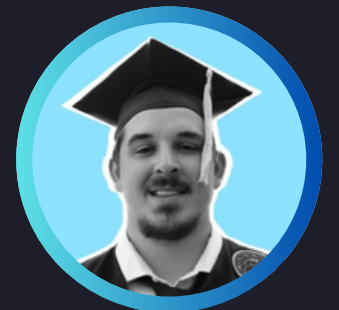

ILARIO

FULL-STACK DEVELOPER

OWNER/FOUNDER
